

PRAIRIECON AI POLICY FOR VENDORS

Effective: March 29, 2026

PrairieCon values and supports our vendors, artists and creators.

We require that products and artwork sold at PrairieCon, that has been created through the use of Artificial Intelligence systems, be marked with signage that indicates it as such.

We also support copyrights and licensing, and remind vendors that they must have the license and/or permission to be able to reproduce any and all products and artwork they are selling.
